SPECIAL MEETING OF THE
VILLAGE OF MARCELLUS
HELD AT THE VILLAGE HALL
ON MARCH 25, 2013

PRESENT: John P. Curtin, Mayor — See List
Patrick W. Cox, Trustee
Sally Tallman, Trustee
Jeff Brown, Attorney

ABSENT: None

Mayor Curtin called the meeting to order at 7:00 p.m. Trustee Tallman made a motion to open the public hearing, seconded by Trustee Cox. All board members voted aye, and the public hearing was opened.

The notice of the public hearing was read by the Village Clerk.

Mayor Curtin explained that the purpose of the meeting was to discuss the 2013 application for funding through the Onondaga County Development Grant Program for work on Scotch Hill Road (aka Sheehan Road) and Sidewalk Rehabilitation – as well as update the Village's Consolidated Five-Year Plan.

Mayor Curtin let everyone know that the Village Board is required by law to conduct a public hearing to inform the public about the Board's request for funding through the Onondaga County Community Development Grant Program. The estimated cost of the project is about $90,000 and the grant would provide 60% ($50,000) of the funding for the project, while the Village would have to provide for 40% ($40,000) of the funding. This is because there is a limit of $50,000 in a CDBG application.

Mayor Curtin also explained that the project will include the installation of approximately 800 feet of granite curbing located on the south side of Scotch Hill Road. New five-foot sidewalks would also be installed on the south side of Scotch Hill. Having authorized the sanitary sewer rehabilitation of Scotch Hill Road for this coming summer's construction season, it was felt that curbing and sidewalk reconstruction would be appropriate, not only for some obvious reasons, but also because the sanitary sewer lines lie underneath the sidewalk and curbing would help to keep storm water in the road, and not flowing into the sanitary sewer lines. This project then, helps to complement this year's sewer rehabilitation project, as well as provide safe pedestrian access on Scotch Hill.

Mayor Curtin informed everyone that it is expected that the project will result in minimal disturbance to the surrounding environment, as well as eliminate the potential for contaminated storm water runoff. The project would be designed during the fall and winter of 2013 and construction would commence in the summer of 2014 and completed by August, 2014 – provided the monies are awarded by CD and the Village is able to provide additional and adequate funding The Village of Marcellus will be responsible for the long-term maintenance of the curbing and sidewalk.

Mayor Curtin then asked if there were any comments or questions from the public regarding the application or the amended Five Year Plan. There were no comments from the public.

Trustee Cox made a motion to adjourn the public hearing at 7:05 p.m., seconded by Trustee Tallman. All board members voted aye and the motion to adjourn the public hearing carried.
